

From the Deep The Ojai Whale, Bone by Bone

COME ALONG AND JOIN IN THE OJAI WHALE "ADOPT" -A- BONE PROJECT

Take part in the Ojai Valley Whale Society's Whale exhibition by participating in the Ojai Whale Adopt-a-Bone project. "Adopt" a bone, and your name, or the name of a person, school, or class you wish to honor will be proudly displayed with the long-term exhibition of the skeleton. When you make your payment, you will receive a Certificate of Adoption.

The Adopt-A-Bone Project money will pay for excavation of the remaining fossils, and preparation, restoration, and mounting of the re-articulated/re-created axial skeleton at a museum that will sustain programs of research, exhibits, publications, music and education. Contributions are tax-deductible to the extent of the law.

\$133,000	Skull (1)	\$14,000	Pelvis (what remains of the Whale's legs-vestigial hind limbs-from when it was a land creature) (2)	\$2,800	Chevrons (V-shaped bones under tail bones) (14)
\$56,000	Mandible (jaw bone) (2)	\$10,500	Humerus (shoulder ball-joint) (2)	\$2,450	Caudal vertebrae (smaller tail bones) (7)
\$24,500	Sternum (breastbone) (1)	\$11,900	Rib (14 on right, 14 on left)	\$2,100	Teeth (from upper jaw) (13/14)
\$17,500	Scapula (shoulder blade) (2)	\$7,000	Lumbar vertebrae (the largest back bones between ribs and pelvis) (14)	\$2,100	Teeth (from lower jaw) (14/15)
\$28,000	Cervical Vertebrae (5 fused with Axis) (1)	\$5,250	Thoracic vertebrae (chest area) (14)	\$1,750	Metacarpals and phalanges (wrist and finger bones)
\$24,000	Atlas (1)	\$4,900	Radius (outside arm bone) (2)		
\$17,500	Final caudal vertebrae (last three tailbones fused together)	\$4,900	Ulna (inside arm bone) (2)		
\$14,000	Hyoid apparatus (complex of 5 bones at the base of the tongue) (1)	\$3,500	Caudal vertebrae (larger tail bones) (10)
